Absolutely necessary for mental and physical health and strength, vitality, clear and calm, is certain if you take Hood's Sarsaparilla.

County Court Calendar.

191 Cases on the Docket for the March Term.

Montpelier, Feb. 19.—The trial calendar for the March term of Washington county court, as prepared by Clerk M. E. Smilie, contains 191 cases of which 99 are for trial by jury and 92 are set for the court.

Among the jury cases are five that come back to county court after being passed upon by Supreme court. Chief among these cases is the assault case of Morris McKinty vs. O. R. Collins and B. H. Lovell, this case has been tried some four times in lower court and has been before Supreme court several times. It is rumored that this case is likely to be set to the level of the docket. In the matter of Almiria E. Cotterly's will H. C. Holmes and others appellants, appeal from probate, another hearing is likely to be given; this case has been twice heard by the Supreme court. The Tomasi vs. Massucco breach of promise case comes back for the new trial granted Tomasi by Supreme court. The case of H. B. Wedge, administrator of the Guilford estate against the Central Vermont R. R. Co., also comes back from Supreme court as does also the case of Edward E. Lea vs. Springer Utton, trespass.

Other cases of interest that are likely to come up for jury trial are as follows: Norwalk Lock Co. vs. City of Montpelier, a hardware bill of some \$400 to \$500, and E. E. Davis vs. City of Montpelier, labor and supplies, these cases being with reference to the East State street school building; Newell C. Wright vs. A. C. F. eton, false imprisonment; Harriet Bailey vs. Vermont Savings Bank of Littleboro, disputed bank note.

The claim of Eleanor F. B. Nicholas of the city against the estate of Cairn also for \$10,000 is also marked for trial. More of the estate is represented by hand on the Berlin side of the Windmill river here.

The case of H. A. Phelps vs. Knott C. Clason probably will not be heard this sitting as the defendant's discharge from bankruptcy has been appealed to the United States Court of Appeals. The outcome of this appeal will be awaited. The defendant is a defunct stock brokerage firm of Burlington.

John S. Norris, administrator of the estate of the late Charles M. Colburn against the C. V. R. R. Co., seeks \$5,400 damages for alleged injuries that resulted in the death of the deceased is another of the important cases. Mary Smith, administrator, vs. the C. V. R. R. Co., seeks \$10,000 damages for alleged injuries, and the case of Dieter against Doyle, the case in which H. C. Shurtleff is counsel, are of local interest.

FOR WAR IN VENEZUELA.

Preparations Complete at the Port—Much Ammunition Received.

Washington, Feb. 19.—The preparations for war at the Venezuelan ports have been completed. A large quantity of ammunition arrived in Venezuela last night, says a dispatch Thursday from Caracas. All the foreign consuls, consular agents and other foreign officials have been absolutely forbidden to go on board steamers at Venezuelan ports without first obtaining official permission. The American minister, Mr. Russell, who has been suffering from an indisposition, has gone to Mexico to recuperate.

The Venezuelan government has appointed Guzman Garbarras to be minister to the United States in place of M. Veloz-Gotinson, who offended President Castro by voting to let the pan-American congress at Rio Janeiro.

Candidate Against Balfour.

London, Feb. 19.—L. S. Montague, son of Sir Samuel Montague, the well known banker, will be the Liberal candidate for the city of London against former Premier Balfour.

BASIS FOR A COMPROMISE

As Suggested by Mr. White at Algiciras

GERMAN & FRENCH NOTES

In Serious Effort at Conciliation at Algiciras Conference—Chances of an Agreement on Morocco Are More Hopeful.

Algiciras, Spain, Feb. 19.—An important step forward has been made in the main Franco-German controversy over the question of the control of the Moroccan police. Friday night M. Revoil, the head of the French delegation, sought Herr von Radowicz, the German envoy, and delivered to him a written response to the proposition the Germans have previously submitted. Secrecy is guarded upon the contents of the French document, but it is known to be a serious effort toward conciliation.

Henry White, the head of the American delegation, said in an interview Saturday: "The communication that passed between France and Germany were in no sense proposals or even notes. They were aides memoire, giving with precision the points of view of the two countries, but may undoubtedly be considered an important step forward." It is understood that the French reply contained only 10 lines and was without heading or signature. Although little of a concrete character has resulted from this exchange of views, there is good reason to believe it has made possible a compromise and that this is already taking shape along lines which Mr. White is understood to have suggested. It was on Mr. White's proposal that the conference Saturday exempted merchant training ships not engaged in trade from the formalities imposed by the new customs regulations.

AGGRESSIVE FRENCH ADMIRAL.

Report He Has Intimated Forthcoming Attack on Arms Factories.

Madrid, Feb. 19.—A dispatch received Saturday by Premier Moret from the military governor at Melilla says the commander of the French cruiser Lalande took off five of 10 Frenchmen at Melilla and informed the others that he declined all responsibilities for their protection and that he then intimated to the commander of the Moroccan gunboat Sidi el Turk that henceforth he might take what action he pleased against the arms factories there.

SCOTTISH REELS FAVORITES.

Minuets Are Again Seen and Spanish Dances Are Soon to Be in Vogue.

London, Feb. 18.—Scottish reels are to be the feature of the London dancing season this year. There are fashions in dancing just as there are in dress. The waltz, the most beautiful of all dances, which has, for the last two or three seasons, been disguised as a combination of barn dance and cakewalk, is to reappear this year in its form of bygone years. Society has put its foot down on other newcomers, sparing only the two-step.

The graceful dances of the "good, olden days," of which the minuets rank first, are again coming into favor. At a large fancy dress ball the minuet waltz cotillon and waltz quadrille replaced the unregretted kitchen lancers. But the Scotch reels will be the favorites. The best programmes will contain plenty of foursome and eight-some reels. It is also likely that the approaching marriage of King Alfonso will bring some of the Spanish dances into favor, and the merry click-click of the castanets is sure to enliven some of the smart dances this spring.

One more the American two-step is unknown.

BIG REVENUE FRAUDS.

Disclosed by the Unearthing of a Bogus Butter Enterprise at Detroit.

Detroit, Mich., Feb. 19.—Thomas Lorimer was arraigned Saturday before United States Commissioner Davidson on the charge of manufacturing colored oleomargarine without paying the government tax of 10 cents a pound, and the government officers say that his arrest marks the exposing of one of the biggest revenue frauds unearthed in that part of the country for years. Warrants are out for several other men alleged to be implicated in the frauds with Lorimer. The revenue officers say that one concern alone with Lorimer was connected with having been buying an average of 35,000 pounds of oleo a month, coloring and reselling the stuff as cream butter. Lorimer's examination was set for Wednesday next.

The Only Survivor

of the Hayes Arctic Expedition, Mr. S. J. McCormick, now U. S. Deputy Mineral Surveyor, Bliss Station, Idaho, says: "For years I have suffered from severe pains in the hip joint and back bone, depriving me of all power. The cause was Stone in the Bladder and Gravel in the Kidneys. After using Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., I was completely cured."

OLD AGE

Depends Not Upon Years, But Upon Vital Force.

In Barre lately there has been a good deal of discussion in regard to old people. Some at fifty years call themselves old, and really appear so, while others at seventy years seem active, vigorous and young.

It is not years, but it is loss of vital force that makes a person old. Weak digestion, thin blood and poor circulation soon start functional powers and vitality on the wane, and then the symptoms of old age quickly appear.

Mr. Wells of Rickett & Wells, our well known druggists, says "that old feeling may be warded off, and we wish every person in Barre who feels old, whether they are so in years or not, would try the great discovery, Vinol. We know that it has vital principles which will in a natural manner strengthen digestion, send rich, red blood coursing through the veins, and give new life and strength to every organ of the body, and this is what makes the old feel young again."

Mrs. H. W. Avery says: "At the age of eighty-nine I felt the need of a tonic, something to strengthen and build me up. For some time I have been taking Vinol, and I have found that it brings vigor and renewed vitality to the aged as nothing else will." Vinol repairs worn tissues, checks the natural decline and replaces weakness with strength. It is an ideal body builder for old folks.

We promise you that Vinol is, first of all, agreeable, because it contains no fishy oil. Second, that it is a genuine cod liver medicine, containing all the medicinal curatives and strength-making elements taken direct from fresh cod livers; and third, we will return your money if it does not do exactly what we claim for it." Rickett & Wells, Druggists.

NO-LICENSE ORGANIZATION.

An Appeal to Workers to Aid Anti-Saloon League.

Burlington, Feb. 19.—Clarence J. Ferguson, superintendent of the Vermont Anti-Saloon League, is sending out a circular letter to temperance workers, clergymen and other more or less prominent or active persons in the various communities, urging them to organize for a no-license campaign in their town this spring and fight to finish against the saloon at the annual March meeting.

His plan is to call a conference of a few influential men in each place and organize a "committee of safety," which should be sub-divided into at least two parts, a canvassing committee and a polling committee. The canvassing committee should divide up the territory or voters and see every voter that did not vote last year or doubtful or hopeful voter before election day. This committee should report results to the polling committee, which should be about the polling place all day to see that the full possible "no vote" is cast.

Superintendent Ferguson adds in his letter of instructions this significant sentence: "If the work is done faithfully, the good results will be astonishing; many towns will be redeemed and a much more helpful state aspect ready for our next legislature."

HAD NARROW ESCAPE.

Bennington Man Was Lowering Plaster Cast Figure.

Bennington, Feb. 19.—While at work Thursday afternoon lowering a life-size plaster figure of the Virgin Mary from its niche in the spire of St. Francis de Sales church, Edward Emerson, a steeple jack, had a narrow escape from death.

With two helpers Emerson has been at work for a number of days on the roof and steeple of the church and Thursday a big pole derrick was rigged and the figure had been swung from its pedestal when the rear guy rope broke. The breaking of the guy caused the tackle to collapse and the statue fell to the ground 60 feet below, and was smashed.

BOTH FEET FROZEN.

North Pownal Man Is in Hospital at No. Adams, Mass.

Bennington, Feb. 19.—James Louney, aged 43 years, a weaver, unmarried, and employed in a mill at North Pownal, is in a hospital at North Adams, Mass., where he was taken with both feet so badly frozen that amputation was necessary above the ankles. Louney is a native of New Bedford, Mass. He came to Pownal from Bennington, Mass., last week. He became intoxicated on Thursday night, and wandered to an abandoned line kiln. When found both feet were frozen stiff. At the hospital the physicians said it was the worst case of freezing they had ever seen. Ice water was poured on the feet, where it would freeze, they were so cold.

Louney comes of an excellent family in New Bedford, where he has two sisters living at the family homestead.

ONE CENT DAMAGES.

Affections of Edward R. Burr Not Valued Highly by the Court.

Woodstock, Feb. 19.—In Windsor county court Edward R. Burr, a lawyer, of Windsor, was granted a divorce from his wife, Maud M. Burr, for willful desertion.

In the case of Loretta J. Burr vs. Gertrude Kimball for alleged alienation of the affections of her husband, Edward R. Burr, and criminal intimacy, in which the sum of \$2,000 damages was claimed, the court gave judgment of one cent damages. Decision in the divorce case which has been brought on the same ground, has not yet been announced.

Killed in Coasting Accident.

Boston, Feb. 19.—A coasting accident occurred on Shaw St., W. Newton, Saturday, when Everett Barker, the 15-year-old son of Orrin Barker, a resident, was so badly hurt that he died later at his home. Tyler Bates, aged 15, was also badly injured, but is expected to recover. With the boys were three girl companions, but they escaped with a severe shaking up and minor bruises. Barker, who was steering the double runner, lost control of it and ran into a tree.

"AIMED AT DYNASTY"

Chinese Minister on Present Agitation

ANTI-FOREIGN RIOTS

Meant to Entangle Government—Pekin, However, Is Prepared to Use Force

—Will Crush Revolt With Great Slaughter.

Washington, Feb. 19.—The Post Saturday says: "There is no danger whatever of an uprising in China against foreigners," said Sir Chentung Liang Chang, the Chinese minister. "It is true, of course, that there is political agitation in China, but its object is to create such excitement as to cause international complications with a view of crippling if not wholly destroying the present dynasty. My Government is amply prepared to meet any emergency. I do not mean that China is threatened with a revolution, but that a small party of discontents is striving desperately to start a revolution. But the movement would not be strong or dangerous. My Government is keeping me minutely informed."

"If as a result of the agitation now going on a worthy foreigner is harmed the emperor's soldiers will pounce upon the community that harbors the miscreants and lay it waste, should they be unable to find every one of the scoundrels responsible, directly or indirectly, for the trouble. The slaughter will be sickening if the Government is driven to reprisals. Yuan Shi Kai, the great viceroy of Chi Li, set the example for this sort of rigorous work in the Boxer uprising of 1900. The slaughter of the Chinese by the emperor's soldiers will be more horrible than that of Yuan's soldiers six years ago if the miscreants now at work to involve China in foreign trouble do not desist."

"Millions of dollars have been expended by the Central Government in the last six years in bringing the army up to a proper condition of efficiency. China does not want to go to war. We are a peaceable people. War is hateful, awful, horrible—hell!"

"Is there likelihood of a foreign war?" "None, so long as the outside world lets China manage her own affairs."

"Is it a fact that Germany, or Germans, are mainly responsible for a large part of the threatening trouble in China at present?"

"The Germans are aggressive," he replied. "Since the dawn of your civilization, the Germans have been the disturbers of the peace and repose of other peoples and nations within what is now the Christian domain. They seem always discontented with what they have, and do not say that they are responsible in any sense for what is going on behind the scenes in China. I have pleaded with the authorities at Peking to be careful to see to it that foreigners of all classes are treated unusually well in China while this agitation lasts. I have learned that my advice is being followed all over China."

"Why has the Government of the United States strengthening its military forces in the Orient?" was suggested. "That is something I do not understand," replied Sir Chentung.

PAPAL ENCYCLICAL ON FRANCE.

Law for Separation of Church and State Strongly Condemned.

Paris, Feb. 19.—A papal encyclical was issued to the French episcopacy, clergy and people Saturday on the situation of the church in France, strongly condemning the law providing for the separation of church and state and giving advice to Roman Catholics. Several French bishops who were summoned to Rome have arrived in Rome to receive verbal instructions for their guidance under the new order of things in France.

The encyclical claims that the holy see did everything possible to avoid the passage of the law, which it terms a great evil to religion and to France, and outlines the church's doctrine on the subject of the relations between church and state, adding that in their union France had found throughout centuries her greatness and glories. Examining the law in itself, the encyclical says it is offensive and repugnant to the divine constitution of the church because the public exercise of worship is intrusted to lay associations. The freedom of the church, it is added, is submitted to the will of public officials, who are despoiling her patrimony. The law, the document continues, cannot fail to injure the internal peace of France, which, especially in the present conjuncture, is in need of the union of all her children. It concludes with exhorting the clergy and people to act in concord and with generosity in defense of their religion and to pray to God for the return of tranquility and peace to France.

Three Killed and 20 Injured.

St. Louis, Mo., Feb. 19.—Three men were killed and 20 girls were slightly injured Saturday by an explosion at the Hercules powder plant at Louisiana Mo. The three men killed were employees of the plant. The explosion occurred when taken internally. That is why medicine has been so helpless in a germ disease. Liquezone is exhilarating, purifying, yet no disease germ can exist in it.

We purchased the American rights to Liquezone after thousands of tests had been made with it. Its power had been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free in every disease that required it. And over one million dollars have been spent to announce and fulfill this offer.

The result is that 11,000,000 bottles have been used, mostly in the past two years. Today there are countless cures, scattered everywhere, to tell what Liquezone has done.

But so many others need it that this offer is published still. In late years, science has traced scores of diseases to germ attacks. Old remedies do not apply to them. We wish to show those sick ones—at our cost—what Liquezone can do.

What Liquezone Is.

The virtues of Liquezone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases so to carry into the system a powerful tonic-germicide.

Contact with Liquezone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Liquezone is not only harmless, but helpful in the extreme. That is its main distinction. Common germicides are poison when taken internally. That is why medicine has been so helpless in a germ disease. Liquezone is exhilarating, purifying, yet no disease germ can exist in it.

We purchased the American rights to Liquezone after thousands of tests had

Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar.

Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and much more for **Uneeda Biscuit**, because they are soda crackers of the best quality. They are baked better—more scientifically. They are packed better—more cleanly. The damp, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks best for his people. His people have shown that they think **Uneeda Biscuit** the best of that food, nearly 400,000,000 packages having already been consumed.

Uneeda Biscuit

NATIONAL BISCUIT COMPANY

5c

MOST VIOLENT IN 64 YEARS.

Entire Island of Martinique Shaken—Other Islands Affected.

Washington, Feb. 19.—The belief of the officials at Washington that the recent prolonged interruption of the submarine cables in West Indian waters was the precursor of great seismic disturbances, was confirmed by the receipt Saturday of a cablegram dated at Fort de France, island of Martinique, Friday from American Consul Jewell, as follows: "Most violent earthquake shock in 64 years prevailed over the entire island at 2 o'clock this afternoon. No great damage."

The officials of the cable company at St. Thomas, D. W. I., have sent out a notice to the effect that cable messages to and from the islands of St. Vincent and Barbados, British West Indies, are subject to delay. No news has been received recently from those islands. Earthquakes were felt Saturday at Dominica, St. Lucia and Guadeloupe.

Two prolonged and severe earthquakes were experienced at Roseau, island of Dominica, D. W. I., at 1:32 p. m. Saturday, the direction being east by south to west by north. The duration of the first shock was 8½ seconds and that of the second shock 3½ seconds. The disturbances slightly damaged the walls of houses.

A very severe earthquake was felt at Castries, island of St. Lucia, D. W. I., at 1:35 p. m. Saturday, and another severe shock was experienced at 2:55 p. m. Nearly all the walls and buildings in Castries were damaged. Following the earlier earthquake of Friday afternoon another shock was felt at 5:45 p. m. Friday and loud detonations and slight shocks continued until 3 o'clock Saturday morning. The inhabitants are in a very disturbed state of mind, and business is suspended. Some of the large residences have been badly damaged, and their occupants have sought shelter elsewhere. Many private houses and stores sustained serious losses. Cable communication with the islands of St. Vincent and Barbados has been severed by the earthquakes.

Pointe-A-Pitre and Basse-Terre on the island of Guadeloupe experienced slight earth shocks Saturday afternoon. A dispatch dated Friday from Quito, Ecuador, says that several slight earth shocks were felt there during the last 48 hours.

ADVISES A MCCURDY SUIT.

Justice Peckham Writes to Special Investigating Committee.

New York, Feb. 19.—The recommendation that a suit be instituted against Richard A. McCurdy, former president of the Mutual Life Insurance company, is made in a letter written by United States Supreme Court Justice Rufus W. Peckham to the special investigating committee of the Mutual, and made public Saturday. The letter states that the suit should be begun before Mr. McCurdy leaves this country for Europe, as his reported intention, and its object should be to recover money which Mr. McCurdy may owe the company. In making this letter public Charles A. Peabody, president of the Mutual, gave out a letter of his own, in which he said that he does not think Justice Peckham will have any reason to find fault with the action of the company relative to the matter to which he refers. The Peckham letter was given to Mr. Peabody by William H. Truesdale, chairman of the Mutual's special investigating committee, to whom it was originally written. Justice Peckham was formerly a trustee of the Mutual Life Insurance company. His letter, dated at Washington on Monday, is as follows:

"I see that it is publicly stated that Mr. McCurdy is preparing to leave for Europe to remain indefinitely, and I think it would be an inexcusable mistake for the Mutual Life Insurance company to permit him to leave the country without the commencement of an action against him in the name of the company to recover the money he may owe it. The attorney general might properly find fault that the company was not itself doing its utmost to reach the money wrongfully obtained by Mr. McCurdy, the chief delinquent in the case. I take the greatest interest in the matter, and I feel as if an action ought to be commenced before the departure of Mr. McCurdy for Europe. Does it not so appear to you? The board at the meeting, as I understand, gave authority to the president to commence any action which the counsel of the company advised and such counsel advised as to Mr. McCurdy that an action could be maintained against him. Surely he is further duty ought to be had that might result in Mr. McCurdy's departure without action against him. I write your committee because your action carries great weight. I hope it

may be in the line of urging the immediate commencement of a suit against Mr. McCurdy." After reading this letter President Peabody sent the following letter to Mr. Truesdale: "Judge Peckham's opinion in connection with the matter has great weight and justly so. I do not think he will have any reason to find fault with the action of the company in the matter to which he refers and I shall certainly do all that is in my power to work out a result which will meet with his commendation."

A Guaranteed Cure for Piles. Itching, Blind, Bleeding, Protruding Piles. Druggists are authorized to refund money if PAZO OINTMENT fails to cure in 6 to 14 days. 50c.

MOTHER AND CHILD DEAD.

Mrs. N. J. Howley and Infant Son Died Almost at the Same Time.

Rutland, Feb. 19.—Within 20 minutes of each other, two deaths occurred at the home of Nicholas J. Howley, 67 School street. At 9:30 o'clock Mrs. Howley, aged 32, died after an illness of but six hours. At 9:50 o'clock, a son of Mr. and Mrs. Howley, who had been born but a few minutes before the mother's death, died. Mr. Howley was widely known in Rutland and popular among all classes of people. She was employed for eight years as clerk in Charles Stierma & Co.'s store. For two years she was bookkeeper at James A. Lillis & Co.'s store. Previous to her marriage Mrs. Howley's name was Miss Isabelle Lanan. She was the daughter of Mr. and Mrs. John Lanan of Rutland. She is survived by her parents and these brothers and sisters: Mrs. Charles A. Ann of Brandon, Miss Elizabeth J. Lanan of Burlington, and Mrs. T. C. Ellsworth, John E. Lanan, Miss Mary C. Lanan, Frank M. Lanan, Charles A. Lanan and William T. Lanan, all of Rutland.

Depot Threatened by Vesuvius.

Naples, Feb. 19.—The activity of Mt. Vesuvius is increasing. Loud explosions are heard and incandescent stones are being thrown to a height of 100 feet. A stream of lava threatens the station of the Funicular railroad. Many tourists are gathering here to witness the spectacle.

A Test Will Tell What Liquezone Can Do for You—and It Is Free.

You who are waiting—we ask you again to try Liquezone; to try it at our expense. You'll regret this delay when you learn what the product means to you. Do as millions have done—stop doubting; give Liquezone a test. Then judge it by results. Germ diseases—and there are scores of them—call for a germicide. Those are the diseases to which Liquezone best applies. Don't cling blindly to old-time remedies, if you don't find them effective. Let us prove the power of the new.

What Liquezone Is.

The virtues of Liquezone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases so to carry into the system a powerful tonic-germicide. Contact with Liquezone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Liquezone is not only harmless, but helpful in the extreme. That is its main distinction. Common germicides are poison when taken internally. That is why medicine has been so helpless in a germ disease. Liquezone is exhilarating, purifying, yet no disease germ can exist in it.

We purchased the American rights to Liquezone after thousands of tests had

been made with it. Its power had been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free in every disease that required it. And over one million dollars have been spent to announce and fulfill this offer.

The result is that 11,000,000 bottles have been used, mostly in the past two years. Today there are countless cures, scattered everywhere, to tell what Liquezone has done.

But so many others need it that this offer is published still. In late years, science has traced scores of diseases to germ attacks. Old remedies do not apply to them. We wish to show those sick ones—at our cost—what Liquezone can do.

Where It Applies.

These are the diseases in which Liquezone has been most employed. In these it has earned its widest reputation. In all of these troubles we supply the first bottle free. And in all—no matter how difficult—we offer each user a two months' further test without the risk of a penny.

Also most forms of the following: Kidney Troubles, Liver Troubles, Stomach Troubles, Women's Diseases, a fever, inflammation or cancer—impure or poisoned blood—usually indicates a germ attack. In nervous debility Liquezone acts as a vitalizer, accomplishing remarkable results.

50c. Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and will pay the druggist ourselves for it.
